

HOOP FREE STANDING

Design: Akihito Ikeuchi , Yasuyuki Ishii / In Design@

Free standing lamp

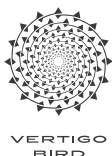

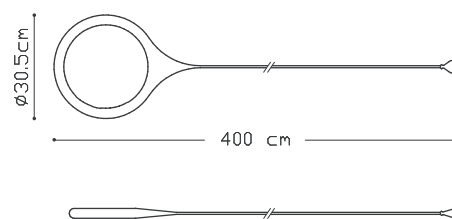

The light body is reminiscent of an over-dimensioned microbe with a single tail. Its movable tail communicates flexibility, youth, vitality. The form has the appearance of a fashion accessory; however, instead of being worn on the body of the owner it's located close by, in his or her immediate vicinity. Hoop offers a new way of using Circle's energy saving light bulb in a product that can be used in a thousand different ways. The microbe-shaped body moves around the space with its lively tail that obtains its energy from the nearest power supply. It can be used as a reading lamp or an ambient light source.

Material: polycarbonate

Colours: white

Specifications

Light source	fluorescent T5-R, 1 x 22W, G10q / included
Code	V03009 5201
Typology	free standing lamp
